Analyte Spreadsheet

Dr. Miller reviewed the attached spreadsheet which combined all data provided from HOG members. The group went through Dr. Miller's proposed recommendations, indicated on the spreadsheet, and discussed agreement and prioritization. Changes and prioritization decisions are shown on the updated spreadsheet. Work assignments from the discussion:

- Dr. Master will do a literature search on Carbon Dioxide
- Mr. Passarelli will investigate P5P in AST and ALT reagents
- Dr. Miller will do a literature search on High-Sensitive CRP; and he will write summaries of rationale for prioritized analytes based on the discussion
- Dr. Young will do a literature search Tacrolimus
- Dr. Lee will do literature search on BNP

The spreadsheet entry GC is clarified as Gonococcus (Neisseria gonorrhoeae).

Those with work to do will try to complete and share with the group in the next two weeks.

Next call will be on Thursday, March 3, 2016, at 7am EST. The goal of that call will be to finalize what will be posted to the website from today's call and continue to review the spreadsheet.
